**Natural Health Trends Announces Second Quarter 2017  
Preliminary Financial Results**

LOS ANGELES – July 14, 2017 – Natural Health Trends Corp. (NASDAQ: NHTC), a leading direct-selling and e-commerce company that markets premium quality personal care, wellness, and “quality of life” products under the NHT Global brand, today announced preliminary financial results for the quarter ended June 30, 2017.

The Company estimates total revenue for the second quarter to be \$51.5 million, compared to \$80.4 million in the second quarter of 2016. The Company further estimates that its deferred revenue at June 30, 2017 was \$4.0 million, compared to \$4.3 million at March 31, 2017. At June 30, 2016, deferred revenue was \$8.8 million, compared to \$6.5 million at March 31, 2016.

Earnings per diluted share for the second quarter are estimated to be in the range of \$0.85 to \$0.90, compared to \$1.07 per diluted share in the second quarter of 2016.

“Our preliminary revenue estimate for the second quarter of 2017 remained under pressure as our leaders continued to progress through the slowdown we have been experiencing in our Asian markets since the third quarter of 2016,” commented Chris Sharnq, President of Natural Health Trends Corp. “In order to reinvigorate momentum in Asia, we have enhanced our incentive programs, launched new promotions and prepared for our summer event in Kuala Lumpur. Further, the second quarter of 2016 presented a difficult year-over-year comparison as a significant product price increase was phased in starting from June last year, pulling demand forward into the quarter a year ago, which led to record product orders. Partially offsetting the sales decline during the second quarter of 2017 was strength in Europe, and the market opening in Peru as well as a positive response to our recent product introductions. Importantly, we have been able to successfully retain all of our top ranked leaders through these challenging times and morale remains strong.”

The Company expects to issue its complete second quarter 2017 financial results in early August. The estimates for the Company’s financial results are preliminary and have not yet been reviewed by the Company’s independent accountants. Significant updates and revisions may be required before the release of the Company’s second quarter 2017 financial results. In addition, the Company’s financial results will include other factors necessary to calculate additional financial metrics, including gross profit and net income.
