**Natural Health Trends Announces Third Quarter 2017
Preliminary Revenue Estimate**

LOS ANGELES – October 13, 2017 – Natural Health Trends Corp. (NASDAQ: NHTC), a leading direct-selling and e-commerce company that markets premium quality personal care, wellness, and “quality of life” products under the NHT Global brand, today announced its preliminary revenue estimate for the quarter ended September 30, 2017.

The Company estimates total revenue for the third quarter to be \$40.1 million, compared to \$70.7 million in the third quarter of 2016. The Company further estimates that its deferred revenue at September 30, 2017 was \$3.6 million, compared to \$4.0 million at June 30, 2017. At September 30, 2016, deferred revenue was \$4.2 million, compared to \$8.8 million at June 30, 2016.

“While our preliminary revenue estimate for the third quarter of 2017 reflects a year-over-year and quarter-over-quarter decline, we remain on track to revitalize sales growth,” commented Chris Sharnq, President of Natural Health Trends Corp. “During the quarter, a temporary slowdown related to the 20th anniversary of Hong Kong's handover and the upcoming 19th National Congress of the Communist Party of China scheduled for mid-October tempered our progress.”

Mr. Sharnq continued, “Despite the challenging environment during the quarter, a number of our markets achieved double-digit sales growth including Peru, Europe, Southeast Asia and Japan. We have provided targeted training programs and implemented enhancements to our international recognition program and matching bonus to better support our leaders, who remain enthusiastic and dedicated to their own sales growth and the overall Company’s success.”

The Company expects to issue its complete third quarter 2017 financial results in early November. The revenue estimate is preliminary and has not yet been reviewed by the Company’s independent accountants. Significant updates and revisions may be required before the release of the Company’s third quarter 2017 financial results. In addition, the Company’s financial results will include other factors necessary to calculate additional financial metrics, including gross profit and net income.
