NATURAL HEALTH TRENDS CORP. AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

1. NATURE OF OPERATIONS AND BASIS OF PRESENTATION

Nature of Operations

Natural Health Trends Corp. (the "Company") is an international direct selling organization headquartered in Dallas, Texas. The Company was originally incorporated as a Florida corporation in 1988. The Company re-incorporated in the state of Delaware effective June 29, 2005. Subsidiaries controlled by the Company sell products to a distributor network that either uses the products themselves or resells them to consumers. The Company's products promote health, wellness and vitality and are sold under the Lexxus and Kaire brands (see Note 6).

The Company's majority-owned subsidiaries have an active physical presence in the following markets: North America, which consists of the United States and Canada; Greater China, which consists of Hong Kong, Macau, Taiwan and China; Southeast Asia, which consists of Singapore, Malaysia, the Philippines, Thailand and Indonesia; Eastern Europe, which consists of Russia, Mongolia and other former Soviet Union Republics; Australia and New Zealand, South Korea, Japan, and Latin America (primarily Mexico).

Basis of Presentation

The unaudited interim consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. As a result, certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States have been condensed or omitted. In the opinion of management, the accompanying unaudited interim consolidated financial statements contain all adjustments, consisting of normal recurring adjustments, considered necessary for a fair statement of the Company's financial information as of September 30, 2005. The results of operations of any interim period are not necessarily indicative of the results of operations to be expected for the fiscal year. These consolidated financial statements should be read in conjunction with the consolidated financial statements and related notes included in our 2004 Annual Report on Form 10-K filed with the United States Securities and Exchange Commission (SEC) on March 31, 2005.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation

The consolidated financial statements include the accounts of the Company and all of its majority-owned subsidiaries. All significant intercompany balances and transactions have been eliminated in consolidation.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reported period. Actual results may differ from these estimates.

The most significant accounting estimates inherent in the preparation of the Company's financial statements include estimates associated with obsolete inventory and the fair value of acquired intangible assets and goodwill, as well as those used in the determination of liabilities related to sales returns, distributor commissions, and income taxes. Various assumptions and other factors prompt the determination of these significant estimates. The process of determining significant estimates is fact specific and takes into account historical experience and current and expected economic conditions. Historically, actual results have not significantly deviated from those determined using the estimates described above.

Reclassification

Certain balances have been reclassified in the prior year consolidated financial statements to conform to current year presentation.

Revenue Recognition

Product sales are recorded when the products are shipped and title passes to independent distributors. Product sales to distributors are made pursuant to a distributor agreement that provides for transfer of both title and risk of loss upon our delivery to the carrier, which is commonly referred to as "F.O.B. Shipping Point." The Company primarily receives payment by credit card at the time distributors place orders. Amounts received for unshipped product are recorded as deferred revenue. The Company's sales arrangements do not contain right of inspection or customer acceptance provisions other than general rights of return.

Actual product returns are recorded as a reduction to net sales. The Company estimates and accrues a reserve for product returns based on its return policies and historical experience.

During April 2005, the Company launched a new product line, Gourmet Coffee Café, which consists of coffee machines and the related coffee and tea pods, in the North American market. As the Gourmet Coffee Café is a very different product than the Company's other products and there is no reliable information on the Company's sales returns or warranty obligation, the Company has deferred all revenue generated from the sale of coffee machines and the related coffee and tea pods until sufficient return and warranty experience on the product can be established. The deferral totaled approximately \$1,464,000 and \$1,131,000 in revenue and related costs, respectively, for product shipped through September 30, 2005. The deferred costs are recorded in other current assets.

Enrollment package revenue, including any nonrefundable set-up fees, is deferred and recognized over the term of the arrangement, generally twelve months. During the third quarter of 2004, the Company changed its amortization methodology from a monthly method to the preferred daily method whereby revenues for each enrollment package start the day of enrollment. The change in methodology resulted in additional deferred revenue of approximately \$280,000 during 2004. Enrollment packages provide distributors access to both a personalized marketing website and a business management system. Prior to the acquisition of MarketVision Communications Corp. ("MarketVision") on March 31, 2004, the Company paid MarketVision a fixed amount in exchange for MarketVision creating and maintaining individual web pages for such distributors. These payments to MarketVision were deferred and recorded as a prepaid expense. The related amortization was recorded to cost of sales over the term of the arrangement. The remaining unamortized costs were included in the determination of the purchase price of MarketVision. Subsequent to the acquisition of MarketVision, no upfront costs are deferred as the amount is nominal.

Shipping charges billed to distributors are included in net sales. Costs associated with shipments are included in cost of sales.

Accounting for Stock-Based Compensation

The Company continues to account for stock-based compensation plans under the recognition and measurement principles of Accounting Principles Board (APB) Opinion No. 25, "Accounting for Stock Issued to Employees," and related Interpretations. The following table illustrates the effect on net income and income per share if the Company had applied the fair value recognition provisions of Financial Accounting Standards Board (FASB) Statement No. 123, "Accounting for Stock-Based Compensation," to stock-based employee compensation (in thousands, except per share data):

		Three Months Ended September 30,		Ionths Ended tember 30,
	2004	2005	2004 As Restated	2005
Net income, as reported	\$ 5,02	8 \$ 119	\$ 2,043	\$ 755
Add: Stock-based employee compensation expense included in reported net income, net of related tax effects	_		_	_
Deduct: Stock-based employee compensation expense determined under fair value based method for all awards, net of related tax effects	(3	1) (20)	(3,874)	(60)
Pro forma net income (loss)	\$ 4,99	7 \$ 99	\$ (1,831)	\$ 695
Basic income (loss) per share:				
As reported	\$ 0.9	2 \$ 0.02	\$ 0.39	\$ 0.11
Pro forma	\$ 0.9	2 \$ 0.01	\$ (0.35)	\$ 0.10
Diluted income (loss) per share:			· ·	
As reported	\$ 0.7	5 \$ 0.01	\$ 0.32	\$ 0.09
Pro forma	\$ 0.7	5 \$ 0.01	\$ (0.35)	\$ 0.08
	3			

The weighted-average fair value of options granted was \$11.91 for the nine months ended September 30, 2004. No options were granted during the three months ended September 30, 2004 and the nine months ended September 30, 2005. The fair value of each option grant was estimated on the date of grant using the Black-Scholes option pricing model with the following weighted-average assumptions: expected life of 4 years, risk-free interest rate of 2.5%, expected volatility of 97%, and dividend yield of zero.

Income Per Share

Basic income per share is computed by dividing net income applicable to common stockholders by the weighted-average number of common shares outstanding during the period. Diluted income per share is determined using the weighted-average number of common shares outstanding during the period, adjusted for the dilutive effect of common stock equivalents, consisting of shares that might be issued upon the exercise of outstanding stock options and warrants. In periods where losses are reported, the weighted-average number of common shares outstanding excludes common stock equivalents because their inclusion would be anti-dilutive.

The dilutive effect of stock options and warrants is reflected by application of the treasury stock method. The potential tax benefit derived from exercise of non-qualified stock options has been excluded from the treasury stock calculation as the Company is uncertain that the benefit will be realized.

		nths Ended nber 30,	Nine Month Septemb	
	2004	2005	2004	2005
			As Restated	
		(In Thousands, Exce	,

Basic weighted-average number of shares outstanding	5,450	6,951	5,189	6,875
Effect of dilutive stock options and warrants	1,242	1,467	1,250	1,392
Diluted weighted-average number of shares outstanding	6,692	8,418	6,439	8,267
Income per share:				
Basic	\$ 0.92	\$ 0.02	\$ 0.39	\$ 0.11
Diluted	\$ 0.75	\$ 0.01	\$ 0.32	\$ 0.09

A warrant to purchase 1,419 shares of common stock was outstanding during each of the three and nine month periods ended September 30, 2004, but was not included in the computation of diluted income per share because the exercise price was greater than the average market price of the common shares. The warrant expired on March 31, 2005.

Options to purchase 310,000 shares of common stock were outstanding during each of the three and nine month periods ended September 30, 2004 and 2005, but were not included in the computation of diluted income per share because the exercise prices were greater than the average market price of the common shares. The options, which expire on March 31, 2011, were still outstanding at September 30, 2005.

Recent Accounting Pronouncements

In November 2004, the FASB issued Statement of Financial Accounting Standards No. 151, "Inventory Costs." This statement requires that certain costs such as idle facility expense, excessive spoilage, double freight, and re-handling costs be recognized as current-period charges and that allocation of fixed production overheads to the costs of conversion be based on the normal capacity of the production facilities. The provisions of the statement shall be effective for inventory costs incurred during fiscal years beginning after June 15, 2005. Adoption of this statement is not anticipated to have a significant impact on the Company's financial condition, results of operations, or cash flows.

In December 2004, the FASB issued Statement of Financial Accounting Standards No. 123 (Revised 2004), "Share-Based Payment." This statement is a revision of FASB Statement No. 123, "Accounting for Stock-Based Compensation," and supersedes APB Opinion No. 25, "Accounting for Stock Issued to Employees." This Statement requires that we record compensation expense for stock options issued, based on the estimated fair value of the options at the date of grant. This statement is effective at the beginning of the next fiscal year that begins after June 15, 2005. We currently are not required to record stock-based compensation charges if the employee's stock option exercise price is equal to or exceeds the fair value of the stock at the date of grant. We have not yet determined what impact, if any, the proposed pronouncement would have on our financial statements.

In May 2005, the FASB issued Statement of Financial Accounting Standards No. 154, "Accounting Changes and Error Corrections — a replacement of APB Opinion No. 20 and FASB Statement No. 3." The statement requires retrospective application to prior periods' financial statements of changes in accounting principle, unless it is impracticable to determine either the period-specific effects or the cumulative effect of the change. The statement is effective for accounting changes and corrections of errors made in fiscal years beginning after December 15, 2005. Adoption of this statement is not expected to have a material impact on the Company's financial condition, results of operations, or cash flows.

3. RESTATEMENT OF PREVIOUSLY ISSUED FINANCIAL STATEMENTS

On March 23, 2005, the Company filed a Current Report on Form 8-K to report, after consultation with its audit committee, that an amendment to its financial statements for the year ended December 31, 2003 and for the first quarter of 2004 is warranted as certain commission and transportation-related expenses incurred as of December 31, 2003 were under-accrued and certain revenues not earned until 2004 were improperly recorded as revenue by its Eastern European business, KGC Networks Ptd. Ltd., for the year ended December 31, 2003. The restatement of the financial statements for the year ended December 31, 2003 reduced the Company's net sales by approximately \$310,000, increased cost of sales by approximately \$180,000, increased distributor commission expense by approximately \$460,000, reduced minority interest expense by approximately \$300,000, and reduced after-tax net income by approximately \$650,000 for the quarter as well as the year ended December 31, 2003.

For the quarter ended March 31, 2004, the restatement increased the Company's net sales by approximately \$310,000, reduced cost of sales by approximately \$180,000, reduced distributor commission expense by approximately \$460,000, increased minority interest expense by approximately \$300,000, and increased after-tax net income by approximately \$650,000 for the quarter ended March 31, 2004.

Although the financial statements for the three month periods ended June 30, 2004 and September 30, 2004 are unaffected by this error, the consolidated financial statements for the second and third quarters of 2004 include inaccurate information on a year to date basis because they include the erroneous information from the first quarter of 2004 which financial statements should not be relied upon. The Company also intends to file in the near future an amended annual report on Form 10-KSB for the year ended December 31, 2003, and amended quarterly reports on Form 10-Q for the first three quarters of 2004.

A reconciliation of the amounts as previously reported and as restated for the nine months ended September 30, 2004 is as follows (in thousands, except per share data):

	As Previously Reported	Adjustments	As Restated
Net sales	\$96,603	\$ 3101	\$96,913
Gross profit	74,436	4902	74,926
Distributor commissions	50,204	(459)3	49,745
Selling, general and administrative expenses	22,450	_	22,450
Income from operations	1,782	949	2,731
Net income	\$ 1,393	6504	\$ 2,043
Income per share:			
Basic	\$ 0.27		\$ 0.39
Diluted	\$ 0.22		\$ 0.32

Revenues not earned until 2004 were improperly recorded as revenue by the Company's Eastern European business, KGC Networks Ptd. Ltd., for the year ended December 31, 2003.

² Includes certain transportation-related expenses incurred but not accrued as of December 31, 2003.

Reflects distributor commissions incurred but not accrued as of December 31, 2003.

⁴ Includes minority interest related to the restatement adjustments.

4. COMPREHENSIVE INCOME (In Thousands)

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2004	2005	2004 As Restated	2005
Net income	\$ 5,028	\$ 119	\$ 2,043	\$ 755
Other comprehensive income (loss), net of tax:				
Foreign currency translation adjustment	51	60	(357)	144
Comprehensive income	\$ 5,079	\$ 179	\$ 1,686	\$ 899

5. BUSINESS COMBINATION

On March 31, 2004, the Company entered into a merger agreement with MarketVision. MarketVision is the exclusive developer and service provider of direct selling internet technology used by the Company since 2001. MarketVision hosts and maintains the internet technology for the Company and charged an annual fee for this service based upon the number of enrolled distributors of the Company's products. MarketVision earned revenues for this service of approximately \$579,000 for the three months ended March 31, 2004.

The shareholder's agreement entered into upon the merger with MarketVision contained a one time put right related to 240,000 shares issued to the former stockholders of MarketVision (other than Mr. LaCore). The put right requires the Company, during the six month period commencing following the earlier of (i) the first anniversary of the closing date, or (ii) the date on which the shares are registered with the Securities and Exchange Commission for resale to the public, to repurchase all or part of such shares still owned by the stockholders for \$4.00 per share less any amount previously received by such stockholders from the sale of their shares. As the put right expired unexercised on September 30, 2005, the Company reclassified the put right obligation of \$960,000 to additional paid-in capital.

The results of operations of MarketVision have been included in the Company's consolidated statements of operations since the completion of the acquisition on March 31, 2004. The following unaudited pro forma information presents a summary of the results of operations of the Company assuming the acquisition of MarketVision occurred on January 1, 2004 (in thousands, except per share data):

	Nine Month	is Ended
	September 3	30, 2004
	Actual	Pro Forma
	As Restated	
Net sales	\$ 96,913	\$96,913
Net income	\$ 2,043	\$ 2,144
Income per share:		
Basic	\$ 0.39	\$ 0.40
Diluted	\$ 0.32	\$ 0.32

6. CONTINGENCIES

During the fall of 2003, the customs agency of the government of South Korea brought a charge against LXK, Ltd. ("LXK"), the Company's wholly-owned subsidiary operating in South Korea, with respect to the importation of the Company's Alura product. The customs agency alleges that Alura is not a cosmetic product, but rather should be categorized and imported as a pharmaceutical product. On February 18, 2005, the Seoul Central District Court ruled against LXK and fined it a total of approximately \$200,000. LXK also incurred related costs of approximately \$40,000 as a result of the judgment. The Company recorded a reserve for the entire \$240,000 at December 31, 2004 and is appealing the ruling. The failure to sell Alura in South Korea is not anticipated to have a material adverse effect on the financial condition, results of operations, cash flow or business prospects of LXK.

On or around March 31, 2004, Lexxus International, Inc. ("Lexxus U.S.") received a letter from John Loghry, a former Lexxus distributor, alleging that Lexxus U.S. had wrongfully terminated an alleged oral distributorship agreement with Mr. Loghry and that the Company had breached an alleged oral agreement to issue shares of the Company's common stock to Mr. Loghry. After Mr. Loghry threatened to commence suit against Lexxus U.S. and the Company in Nebraska, on May 13, 2004, Lexxus U.S. and the

Company filed an action for declaratory relief against Mr. Loghry in the United States District Court for the Northern District of Texas seeking, inter alia, a declaration that Mr. Loghry was not wrongfully terminated and is not entitled to recover anything from Lexxus U.S. or the Company. Mr. Loghry has filed counterclaims against the Company and Lexxus U.S. asserting his previously articulated claims. In September 2004, Mr. Loghry filed third party claims against certain officers of the Company and Lexxus U.S., including against Terry LaCore, former Chief Executive Officer of Lexxus U.S. and former director of the Company, and Mark Woodburn, former President and director of the Company, for fraud, Messrs. LaCore, Woodburn, and a certain Lexxus distributor for conspiracy to commit fraud and tortuous interference with contract. In February 2005, the court dismissed all of Mr. Loghry's claims against the individual defendants, except the claims for fraud and conspiracy to commit fraud. On June 2, 2005, after Mr. Loghry had filed amended counterclaims, Lexxus U.S., the Company, and the individual defendants moved to dismiss the counterclaims on the grounds that the claims were barred because Mr. Loghry had failed to disclose the existence of the alleged claims when he filed for personal bankruptcy in September 2002. On June 23, 2005, the court stayed discovery pending resolution of the pending motion to dismiss. On June 30, 2005, at the request of Mr. Loghry, the U.S. Bankruptcy Court for the District of Nebraska reopened Mr. Loghry's previously closed Chapter 7 bankruptcy case. On September 6, 2005, the trustee commenced an action in the U.S. District Court for the District of Nebraska against the Company; Lexxus U.S.; Messrs. LaCore and Woodburn; Curtis Broome, President of Greater China and Southeast Asia; and Lisa Grossman, an independent distributor of Lexxus U.S., alleging (i) breaches of contracts by the Company and Lexxus U.S., (ii) fraudulent inducement by the Company, Lexxus U.S., and Messrs. LaCore and Woodburn, (iii) civil conspiracy among all defendants, and (iv) tortuous interference with existing contractual relations by Mr. Broome and Ms. Grossman. The Company denies the allegations and intends to contest the

On November 1, 2004, Toyota Jidosha Kabushiki Kaisha (d/b/a Toyota Motor Corporation) and Toyota Motor Sales, U.S.A. (the "Toyota Entities") filed a complaint against the Company and Lexxus U.S. in United States District Court for the Central District of California (CV04-9028). The complaint alleges trademark and service mark dilution, unfair competition, trademark and service mark infringement, and trade name infringement, each with respect to Toyota's Lexus trademark. Toyota seeks to enjoin the Company and Lexxus U.S. from using the Lexxus mark and otherwise competing unfairly with Toyota, to transfer the ownership of the mylexxus.com and lexxusinternational.com internet sites to Toyota, and reimbursement of costs and reasonable attorney fees incurred by Toyota in connection with this matter. The Company has reached a settlement agreement, dated August 31, 2005, under which the Toyota Entities have agreed to terminate their claims against the Company, and the Company has agreed to, on or before June 1, 2006, discontinue use of the Lexxus name and mark, and change the name of its Lexxus operations and domain names, which could have a material adverse effect on the financial condition, results of operations, cash flow or business prospects of the Company.

On November 12, 2004, Dorothy Porter filed a complaint against the Company in the United States District Court for the Southern District of Illinois alleging that she sustained a brain hemorrhage after taking Formula One, an ephedra-containing product marketed by Kaire Nutraceuticals, Inc., a former subsidiary of the Company, and, thereafter, eKaire.com, Inc., a wholly-owned subsidiary of the Company. Ms. Porter has sued the Company for strict liability, breach of warranty and negligence. The Company intends to defend this case vigorously and on December 27, 2004 filed an answer denying the allegations contained in the complaint. The plaintiff demanded \$2 million in damages to settle the case. On March 7, 2005, a Notice of Tag-Along Action was filed by Ms. Porter with the Judicial Panel on Multidistrict Litigation. It is anticipated that this case will be placed on the next Conditional Transfer Order and, ultimately, transferred to the consolidated Ephedra Products Liability proceedings in the United States District Court for the Southern District of New York. The Company does not believe that the plaintiff can demonstrate that its products caused the alleged injury and intends to vigorously defend this action.

On January 13, 2005, Nature's Sunshine Products, Inc. and Nature's Sunshine Products de Mexico S.A. de C.V. (collectively "Nature's Sunshine") filed suit against the Company in the Fourth Judicial District Court, Utah County, State of Utah seeking injunctive relief and unspecified damages against the Company, Lexxus U.S., the Company's Mexican subsidiary, and the Company's Mexico management team, Oscar de la Mora and Jose Villarreal Patino, alleging among other things that the Company's employment of Messrs. De la Mora and Villarreal violated or could lead to the violation of certain non-compete, non-solicitation, and confidentiality agreements allegedly in effect between Messrs. De la Mora and Villarreal and Nature's Sunshine. Following repeated unsuccessful attempts by Nature's Sunshine to remand the case to state court, Nature's Sunshine voluntarily dismissed its lawsuit on May 5, 2005 and subsequently filed a new lawsuit in the Fourth Judicial District Court in Utah County, Utah. On August 22, 2005, a hearing was conducted on Nature's Sunshines's request for preliminary injunction, after which the court announced its intention to enjoin Messrs. De la Mora and Villarreal from disclosing any confidential information of Nature's Sunshine or soliciting any employee or distributor of Nature's Sunshine or inducing them to terminate their relationship with Nature's Sunshine. The court, however, did not enjoin Messrs. De la Mora or Villarreal from competing with Nature's Sunshine. The case remains pending. If the Company or Messrs. De la Mora and Villarreal are unsuccessful in defending this action, the Company may be required to change its Mexico management team, at least during the unexpired term of any enforceable non-compete period, and pay any damages and attorneys' fees that may be assessed against it.

Currently, there is no other significant litigation pending against the Company other than as disclosed in the paragraphs above. From time to time, the Company may become a party to litigation and subject to claims incident to the ordinary course of the Company's business. Although the results of such litigation and claims in the ordinary course of business cannot be predicted with certainty, the Company believes that the final outcome of such matters will not have a material adverse effect on the Company's business, results of operations or financial condition. Regardless of outcome, litigation can have an adverse impact on the Company because of defense costs, diversion of management resources and other factors.

7. RELATED PARTY TRANSACTIONS

In August 2001, the Company entered into a written lease agreement and an oral management agreement with S&B Business Services, an affiliate of Brad LaCore, the brother of Terry LaCore, former Chief Executive Officer of Lexxus U.S. and former director of the Company, and Sherry LaCore, Brad LaCore's spouse. Under the terms of the two agreements, S&B Business Services provides warehouse facilities and certain equipment, manages and ships inventory, provides independent distributor support services and disburses payments to independent distributors. In exchange for these services, the Company pays \$18,000 annually for leasing the warehouse, \$3,600 annually for the lease of warehouse equipment and \$120,000 annually for the management services provided, plus an annual average of approximately \$12,000 for business related services. The Company paid S&B Business Services approximately \$38,500 and \$41,000 for the three month periods ended September 30, 2004 and 2005, respectively, and approximately \$116,500 and \$119,000 for the nine month periods ended September 30, 2004 and 2005, respectively.

In September 2001, the Company entered into an oral consulting agreement with William Woodburn, the father of Mark Woodburn, former President and director of the Company, pursuant to which William Woodburn provided the Company with management advice and other advisory assistance. In exchange for such services, the Company starting June 8, 2001 paid to Ohio Valley Welding, Inc., an affiliate of William Woodburn, \$6,250 on a bi-weekly basis. The Company paid \$43,750 and \$118,750 for the three and nine month periods ended September 30, 2004, respectively, to Ohio Valley Welding, Inc. The consulting agreement between the Company and William Woodburn was terminated as of September 30, 2004.

The Company's former controller is married to Mark Woodburn, former President and director of the Company. Her employment with the Company ended in August 2004. The Company paid her approximately \$27,000 and \$73,000 for the three and nine month periods ended September 30, 2004, respectively.

On March 31, 2004, the Company entered into a merger agreement with MarketVision, pursuant to which the Company acquired all of the outstanding capital stock of MarketVision (see Note 5). As a founding stockholder of MarketVision, Terry LaCore, former Chief Executive Officer of Lexxus U.S. and former director of the Company, received 450,000 shares of the Company's common stock and is entitled to receive approximately \$840,000 plus interest from promissory notes issued by the Company. As of September 30, 2005, the outstanding balance due Mr. LaCore was approximately \$52,000.

See Note 8 for additional related party transactions.

8. SUBSEQUENT EVENTS

During September 2005, the Company reorganized its senior management team in connection with an investigation conducted by the Company's Audit Committee. Effective October 3, 2005, the Board of Directors of the Company appointed Robert H. Hesse, a member of the Company's Board of Directors since July 2004, as the Company's Interim Chief Executive Officer. Each of Mark Woodburn and Terry LaCore resigned as officers and members of the Company's Board of Directors due to their failure to cooperate with the Audit Committee's investigation. The investigation was initiated in August 2005 and includes allegations of misconduct by Messrs. Woodburn and LaCore asserted by an unrelated third party arising out of a lawsuit involving Mr. LaCore and such unrelated third party. From October 3, 2005 through November 13, 2005, Messrs. Woodburn and LaCore were employed as the Company's Global Managing Director — Operations and Global Managing Director — Business Development, respectively.

The Company also created the Office of the Chief Executive, which is comprised of Mr. Hesse, Chris Sharng, the Company's Executive Vice President and Chief Financial Officer, and Richard S. Johnson, President of Natural Health Trends — Japan. The Office of the Chief Executive is responsible for managing the day-to-day operations of the Company. Since Mr. Hesse is no longer considered to be an independent director, he resigned from the Company's Audit Committee in September 2005. The Company's Nominating Committee is in the process of identifying, reviewing and evaluating appropriate candidates for appointment to the Board of Directors as independent directors. The Company intends to appoint two of the anticipated new independent directors to its Audit Committee.

The Company has formed a search committee to identify and consider appropriate candidates to serve as the Company's Chief Executive Officer. While serving as the Company's Interim Chief Executive Officer, the Company pays Mr. Hesse \$2,000 per day plus reimbursement of out-of-pocket expenses.

On November 10, 2005, an independent investigator retained by the Company's Audit Committee learned that an entity controlled by Messrs. Woodburn and LaCore received payments from an independent distributor of the Company's products during 2001 through August 2005. The Company believes that Messrs. Woodburn and LaCore received from such independent distributor a total of approximately \$1.4 million and \$1.1 million, respectively. The Company believes that the fees paid by the Company to such independent distributor were not in excess of the amounts due under the Company's regular distributor compensation plan.

Approximately \$2.4 million of the funds paid by the independent distributor to Messrs. Woodburn and LaCore were paid at the direction of Messrs. Woodburn and LaCore to an entity that is partially owned by Mr. Woodburn's father and Randall A. Mason, a member of the Company's Board of Directors and Chairman of the Company's Audit Committee. The funds were subsequently paid to an entity controlled by Messrs. Woodburn and LaCore at their direction. The Company believes that Mr. Mason was unaware that these payments were directed by Messrs. Woodburn and LaCore to an entity partially owned by him until uncovered by the Audit's Committee's independent investigator on November 10, 2005. Further, the Company believes that Mr. Mason received no pecuniary benefit from the payments made by the independent distributor. Since payments were directed into an entity that is partially owned by Mr. Mason, he no longer can be considered "independent" in accordance with the rules of The Nasdaq Stock Market and under the federal securities laws. Therefore, effective November 11, 2005, Mr. Mason resigned as Chairman and a member of the Company's Audit Committee. Mr. Mason remains as a director.

On November 14, 2005, in light of the information learned by the Company's Audit Committee on November 10, 2005, the Company has terminated the employment of each of Messrs. Woodburn and LaCore. No severance has been paid by the Company to Messrs. Woodburn and LaCore and the Company is investigating claims of action against them.

In addition, a loan made by the Company under the direction of Mr. Woodburn in the aggregate principal amount of \$256,000 in February 2004 was previously recorded as a loan to a third party. On November 10, 2005, the Audit Committee investigator learned that the Company actually loaned the funds to an entity owned and controlled by the parents of Mr. Woodburn. The loan was repaid in full, partially by an entity controlled by a third party and partially by an entity controlled by Mr. Woodburn in December 2004.

The Audit Committee's investigation is ongoing, and among other procedures the Company is attempting to interview additional top distributors. The outcome of the interviews could have an adverse effect on disclosures related to funds paid to Messrs. Woodburn and LaCore and potentially other members of management. The Company is seeking additional independent directors for its Board of Directors and the committees thereof. The Company intends to amend certain disclosures in previous filings with the Securities and Exchange Commission related to payments made by the independent distributor to Messrs. Woodburn and LaCore and to re-characterize the loan made by the Company to the entity controlled by Mr. Woodburn's parents.

Although we are currently unable to predict the effect of the outcome of the termination of Messrs. Woodburn and LaCore as well as the Audit Committee's investigation on our business, we anticipate that, among other things, the number of active independent distributors and sales revenue could be materially and adversely effected.

On October 12, 2005, the Company received a letter from The Nasdaq Stock Market stating that the Company is not in compliance with Marketplace Rule 4350. Specifically, due to the resignation of Mr. Hesse from the Company's Audit Committee, the Company's Audit Committee is not comprised of three independent directors. Pursuant to Marketplace Rule 4350(d)(4), the Company has been provided with the opportunity to cure such non-compliance until the earlier of its next annual stockholders' meeting or September 28, 2006.

On October 31, 2005, the Company's Board of Directors authorized the issuance of options to purchase a total of 130,000 shares of the Company's common stock at an exercise price of \$10.01 per share (the closing price on the date of issuance). Options to purchase 7,500 shares of the Company's common stock issued to each of the three members of the Company's Board of Directors vest immediately. The remaining options issued to management and certain other employees vest over a three year period.

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following Management's Discussion and Analysis should be read in conjunction with Management's Discussion and Analysis included in our 2004 Annual Report on Form 10-K filed with the United States Securities and Exchange Commission (SEC) on March 31, 2005, and our other filings, including Current Reports on Form 8-K, filed with the SEC through the date of this report.

Company Overview

Natural Health Trends Corp. (the "Company") is an international direct selling organization. We control subsidiaries that distribute products through two separate direct selling businesses that promote health, wellness and vitality. Lexxus International, Inc., our whollyowned subsidiary ("Lexxus U.S."), and other Lexxus subsidiaries (collectively, "Lexxus"), sell certain cosmetic products as well as "quality of life" products, which accounted for approximately 99% of our consolidated net revenues in 2004 as well as in the nine months ended September 30, 2005. eKaire.com, Inc. ("eKaire"), our wholly-owned subsidiary, distributes nutritional supplements aimed at general health and wellness.

Lexxus commenced operations in January 2001 and has experienced tremendous growth, as we are currently conducting business in at least 30 countries through approximately 166,000 active distributors as of September 30, 2005. (We consider a distributor "active" if he or she has placed at least one product order with us during the preceding year). The Lexxus business includes KGC Networks Pte. Ltd. ("KGC"), a Singapore company owned 51% by the Company and 49% by a European private investor. KGC sells Lexxus products into a separate network with distributors primarily in Russia and other Eastern European countries. eKaire has been in business since 2000 and is operating in four countries through approximately 3,000 active distributors.

We have experienced significant revenue growth over the last few years due in part to our efforts to expand into new markets. We intend to pursue additional foreign markets in 2005. We began accepting orders in Mexico the week of July 18, 2005 and anticipate commencing revenue generation in Japan in the fourth quarter of 2005. We also opened our first of up to four experience centers in Guangzhou, China the week of July 18, 2005.

In the quarter ended September 30, 2005, we generated approximately 93% of our revenue from outside North America, with sales in Hong Kong representing approximately 65% of revenue. Because of the size of our foreign operations, operating results can be impacted negatively or positively by factors such as foreign currency fluctuations, and economic, political and business conditions around the world. In addition, our business is subject to various laws and regulations, in particular regulations related to direct selling activities that create certain risks for our business, including improper claims or activities by our distributors and potential inability to obtain necessary product registrations.

Recent Developments

During September 2005, the Company reorganized its senior management team in connection with an investigation conducted by the Company's Audit Committee. Effective October 3, 2005, the Board of Directors of the Company appointed Robert H. Hesse, a member of the Company's Board of Directors since July 2004, as the Company's Interim Chief Executive Officer. Each of Mark Woodburn and Terry LaCore resigned as officers and members of the Company's Board of Directors due to their failure to cooperate with the Audit Committee's investigation. The investigation was initiated in August 2005 and includes allegations of misconduct by Messrs. Woodburn and LaCore asserted by an unrelated third party arising out of a lawsuit involving Mr. LaCore and such unrelated third party. From October 3, 2005 through November 13, 2005, Messrs. Woodburn and LaCore were employed as the Company's Global Managing Director — Operations and Global Managing Director — Business Development, respectively.

The Company also created the Office of the Chief Executive, which is comprised of Mr. Hesse, Chris Sharng, the Company's Executive Vice President and Chief Financial Officer, and Richard S. Johnson, President of Natural Health Trends — Japan. The Office of the Chief Executive is responsible for managing the day-to-day operations of the Company. Since Mr. Hesse is no longer considered to be an independent director, he resigned from the Company's Audit Committee in September 2005. The Company's Nominating Committee is in the process of identifying, reviewing and evaluating appropriate candidates for appointment to the Board of Directors as independent directors. The Company intends to appoint two of the anticipated new independent directors to its Audit Committee.

The Company has formed a search committee to identify and consider appropriate candidates to serve as the Company's Chief Executive Officer. While serving as the Company's Interim Chief Executive Officer, the Company pays Mr. Hesse \$2,000 per day plus reimbursement of out-of-pocket expenses.

On November 10, 2005, an independent investigator retained by the Company's Audit Committee learned that an entity controlled by Messrs. Woodburn and LaCore received payments from an independent distributor of the Company's products during 2001 through August 2005. The Company believes that Messrs. Woodburn and LaCore received from such independent distributor a total of approximately \$1.4 million and \$1.1 million, respectively. The Company believes that the fees paid by the Company to such independent distributor were not in excess of the amounts due under the Company's regular distributor compensation plan.

Approximately \$2.4 million of the funds paid by the independent distributor to Messrs. Woodburn and LaCore were paid at the direction of Messrs. Woodburn and LaCore to an entity that is partially owned by Mr. Woodburn's father and Randall A. Mason, a member of the Company's Board of Directors and Chairman of the Company's Audit Committee. The funds were subsequently paid to an entity controlled by Messrs. Woodburn and LaCore at their direction. The Company believes that Mr. Mason was unaware that these payments were directed by Messrs. Woodburn and LaCore to an entity partially owned by him until uncovered by the Audit's Committee's independent investigator on November 10, 2005. Further, the Company believes that Mr. Mason received no pecuniary benefit from the payments made by the independent distributor. Since payments were directed into an entity that is partially owned by Mr. Mason, he no longer can be considered "independent" in accordance with the rules of The Nasdaq Stock Market and under the federal securities laws. Therefore, effective November 11, 2005, Mr. Mason resigned as Chairman and a member of the Company's Audit Committee. Mr. Mason remains as a director.

On November 14, 2005, in light of the information learned by the Company's Audit Committee on November 10, 2005, the Company has terminated the employment of each of Messrs. Woodburn and LaCore. No severance has been paid by the Company to Messrs. Woodburn and LaCore and the Company is investigating claims of action against them.

In addition, a loan made by the Company under the direction of Mr. Woodburn in the aggregate principal amount of \$256,000 in February 2004 was previously recorded as a loan to a third party. On November 10, 2005, the Audit Committee investigator learned that the Company actually loaned the funds to an entity owned and controlled by the parents of Mr. Woodburn. The loan was repaid in full, partially by an entity controlled by a third party and partially by an entity controlled by Mr. Woodburn in December 2004.

The Audit Committee's investigation is ongoing, and among other procedures the Company is attempting to interview additional top distributors. The outcome of the interviews could have an adverse effect on disclosures related to funds paid to Messrs. Woodburn and LaCore and potentially other members of management. The Company is seeking additional independent directors for its Board of Directors and the committees thereof. The Company intends to amend certain disclosures in previous filings with the Securities and Exchange Commission related to payments made by the independent distributor to Messrs. Woodburn and LaCore and to re-characterize the loan made by the Company to the entity controlled by Mr. Woodburn's parents.

Although we are currently unable to predict the effect of the outcome of the termination of Messrs. Woodburn and LaCore as well as the Audit Committee's investigation on our business, we anticipate that, among other things, the number of active independent distributors and sales revenue could be materially and adversely effected.

Income Statement Presentation

Net Sales. The Company derives its revenue from sales of its products, sales of its enrollment packages, and from shipping charges. Substantially all of its product sales are to independent distributors at published wholesale prices. We translate revenue from each market's local currency into U.S. dollars using average rates of exchange during the period.

The following table sets forth revenue by market and product line for the time periods indicated (in thousands).

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2004	2005	2004 As Restated	2005
North America	\$ 4,073	\$ 3,534	\$ 10,898	\$ 12,486
Hong Kong	23,751	37,653	52,798	94,902
Taiwan	821	1,082	2,368	2,895
Southeast Asia	631	2,687	937	5,493

Australia/New Zealand	129	108	382	332
Total Kaire	400	375	1,367	1,288
	\$40,482	\$ 58,071	\$ 96,913	\$150,789

Cost of Sales. Cost of sales consist primarily of products purchased from third-party manufacturers, freight cost of shipping products to distributors and import duties for the products, costs of promotional materials sold to the Company's distributors at or near cost, provisions for slow moving or obsolete inventories and, prior to the closing of the merger with MarketVision Communications

Corp. ("MarketVision") as of March 31, 2004, the amortization of fees charged by the Company's third party software service provider. Cost of sales also includes purchasing costs, receiving costs, inspection costs and warehousing costs. Certain prior year amounts have been re-classified into cost of sales so that the financial statements are comparable between periods.

Distributor Commissions. Distributor commissions are our most significant expense and are classified as operating expenses. Under our compensation plan, distributors are paid weekly commissions in the distributor's home country, in their local currency, for product sold by that distributor's down-line distributor network across all geographic markets. Distributors are not paid commissions on purchases or sales of our products made directly by them. This "seamless" compensation plan enables a distributor located in one country to sponsor other distributors located in other countries where we are authorized to do business.

Currently, there are two fundamental ways in which our distributors can earn income:

- Through retail markups on sales of products purchased by distributors at wholesale prices; and
- Through a series of commissions paid on product purchases made by their down-line distributors.

Each of our products carries a specified number of sales volume points. Commissions are based on total personal and group sales volume points per sales period. Sales volume points are essentially based upon a percentage of a product's wholesale cost. To be eligible to receive commissions, a distributor may be required to make nominal monthly purchases of our products. Certain of our subsidiaries do not require these nominal purchases for a distributor to be eligible to receive commissions.

In determining commissions, the number of levels of down-line distributors included within the distributor's commissionable group increases as the number of distributorships directly below the distributor increases. Distributor commissions are dependent on the sales mix and, for 2004, typically ranged between 42% and 55% of net sales. From time to time we make modifications and enhancements to our compensation plan to help motivate distributors, which can have an impact on distributor commissions. In January 2005, we implemented a 5% price increase across all product lines without changing the sales volume points assigned to them. Effectively the price increase is expected to reduce the distributor commissions as a percentage of revenue.

Selling, General and Administrative Expenses (SG&A). Selling, general and administrative expenses consist of administrative compensation and benefits, travel, credit card fees and assessments, professional fees, certain occupancy costs, depreciation and amortization, and other corporate administrative expenses. In addition, this category includes selling, marketing, and promotion expenses including costs of distributor conventions which are designed to increase both product awareness and distributor recruitment. Because our various distributor conventions are not always held at the same time each year, interim period comparisons will be impacted accordingly.

Income Tax Provision. Provision for income taxes depends on the statutory tax rates in each of the jurisdictions in which we operate. We expect to complete by the end of 2005 the implementation of a foreign holding and operating company structure for our non-United States businesses. This new structure will re-organize our non-United States subsidiaries in the Cayman Islands. Though our goal is to improve the overall tax rate, there is no assurance that the new tax structure could be successful. If the United States Internal Revenue Service or the taxing authorities of any other jurisdiction were to successfully challenge these agreements, plans, or arrangements, or require changes in our transfer pricing practices, we could be required to pay higher taxes, interest and penalties, and our earnings would be adversely affected.

Critical Accounting Policies and Estimates

In response to SEC Release No. 33-8040, "Cautionary Advice Regarding Disclosure about Critical Accounting Policies" and SEC Release Number 33-8056, "Commission Statement about Management's Discussion and Analysis of Financial Condition and Results of Operations," the Company has identified certain policies that are important to the portrayal of its consolidated financial condition and consolidated results of operations. These policies require the application of significant judgment by the Company's management.

The most significant accounting estimates inherent in the preparation of the Company's financial statements include estimates associated with obsolete inventory and the fair value of acquired intangible assets and goodwill, as well as those used in the determination of liabilities related to sales returns, distributor commissions, and income taxes. Various assumptions and other factors prompt the determination of these significant estimates. The process of determining significant estimates is fact specific and takes into account historical experience and current and expected economic conditions. Historically, actual results have not significantly deviated from those determined using the estimates described above. If circumstances change relating to the various assumptions or other factors used in such estimates the Company could experience an adverse effect on its consolidated financial condition, changes in financial condition, and results of operations. The Company's critical accounting policies at September 30, 2005 include the following:

Inventory Valuation. The Company reviews its inventory carrying value and compares it to the net realizable value of its inventory and any inventory value in excess of net realizable value is written down. In addition, the Company reviews its inventory for obsolescence and any inventory identified as obsolete is reserved or written off. The Company's determination of obsolescence is based on assumptions about the demand for its products, product expiration dates, estimated future sales, and management's future plans. Also, if actual sales or management plans are less favorable than those originally projected by management, additional inventory reserves or write-downs may be required. The Company's inventory value at September 30, 2005 was approximately \$16.9 million. Inventory write-downs for the three and nine months ended September 30, 2005 were not significant.

Asset Impairment. The Company reviews the book value of its property and equipment and intangible assets whenever an event or change in circumstances indicates that the net book value of an asset or group of assets may be unrecoverable. The Company's impairment review includes a comparison of future projected cash flows (undiscounted and without interest charges) generated by the asset or group of assets with its associated carrying value. The Company believes its expected future cash flows approximate or exceed its net book value. However, if circumstances change and the net book value of the asset or group of assets exceeds expected cash flows, the Company would have to recognize an impairment loss to the extent the net book value of the asset exceeds its fair value. At September 30, 2005, the net book value of the Company's property and equipment and intangible assets were approximately \$2.2 million and \$4.8 million, respectively. No such impairment losses were recognized for the three and nine months ended September 30, 2005.

Allowance for Sales Returns. An allowance for sales returns is provided as Lexxus and Kaire product is shipped. The allowance is based upon the return policy of each country, which varies from 14 days to one year, and their historical return rates, which range from approximately 1% to approximately 18% of product sales. Sales returns are approximately 4% of product sales for the three and nine months ended September 30, 2004 and 2005. The allowance for sales returns was approximately \$1.5 million and \$3.1 million at December 31, 2004 and September 30, 2005, respectively. No material changes in estimates have been recognized for the three and nine months ended September 30, 2005.

Revenue Recognition. Product sales are recorded when the products are shipped and title passes to independent distributors. Product sales to distributors are made pursuant to a distributor agreement that provides for transfer of both title and risk of loss upon our delivery to the carrier, which is commonly referred to as "F.O.B. Shipping Point." The Company primarily receives payment by credit card at the time distributors place orders. The Company's sales arrangements do not contain right of inspection or customer acceptance provisions other than general rights of return. Amounts received for unshipped product are recorded as deferred revenue. Such amounts totaled \$4.9 million at December 31, 2004 and September 30, 2005.

Enrollment package revenue, including any nonrefundable set-up fees, is deferred and recognized over the term of the arrangement, generally twelve months. Enrollment packages provide distributors access to both a personalized marketing website and a business management system. Prior to the merger with MarketVision on March 31, 2004, the Company paid MarketVision a fixed amount in exchange for MarketVision creating and maintaining individual web pages for such distributors. These payments to MarketVision were deferred and recorded as a prepaid expense. The related amortization was recorded to cost of sales over the term of the arrangement. The remaining unamortized costs were included in the determination of the purchase price of MarketVision. Subsequent to the acquisition of MarketVision, no upfront costs are deferred as the amount is nominal. Deferred enrollment package revenue totaled \$4.7 million at December 31, 2004 and \$7.1 million at September 30, 2005. Although the Company has no immediate plans to significantly change the terms or conditions of enrollment packages, any changes in the future could result in additional revenue deferrals or could cause us to recognize its deferred revenue over a longer period of time.

During April 2005, the Company launched a new product line, Gourmet Coffee Café, which consists of coffee machines and the related coffee and tea pods, in the North American market. As the Gourmet Coffee Café is a very different product than the Company's other products and there is no reliable information on the Company's sales returns or warranty obligation, the Company has deferred all revenue generated from the sale of coffee machines and the related coffee and tea pods until sufficient return and warranty experience on the product can be established. The deferral totaled approximately \$1.5 million for product shipped through September 30, 2005.

Tax Valuation Allowance. The Company evaluates the probability of realizing the future benefits of any of its deferred tax assets and records a valuation allowance when it believes a portion or all of its deferred tax assets may not be realized. At December 31, 2004, the Company recognized net deferred tax assets of approximately \$515 thousand as it expects to utilize a portion of its net operating loss carry-forward in connection with the implementation of a foreign holding and operating company restructure. A valuation allowance of \$1.5 million was established for the remainder of its net deferred tax assets. If the Company is unable to realize the expected future benefits of its deferred tax assets, it would be required to provide an additional valuation allowance.

Results of Operations

The following table sets forth our operating results as a percentage of net sales for the periods indicated.

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2004	2005	2004	2005
			As Restated	
Net sales	100.0%	100.0%	100.0%	100.0%
Cost of sales	21.9	22.4	22.7	22.3
Gross profit	78.1	77.6	77.3	77.7
Operating expenses:				
Distributor commissions	43.0	50.1	51.3	51.7
Selling, general and administrative expenses	20.5	26.0	23.2	24.3
Total operating expenses	63.5	76.1	74.5	76.0
Income from operations	14.6	1.5	2.8	1.7
Other expense, net	(0.2)	(0.1)	(0.1)	(0.5)
Income before income taxes and minority interest	14.4	1.4	2.7	1.2
Income tax provision	(2.1)	(1.1)	(0.1)	(0.6)
Minority interest	0.1	(0.1)	(0.5)	(0.1)
Net income	12.4%	0.2%	2.1%	0.5%

Net Sales. Net sales were approximately \$58.1 million for the three months ended September 30, 2005 compared to \$40.5 million for the same period in the prior year, an increase of \$17.6 million or 43 percent. This increase was largely due to the significant growth in the business based in Hong Kong. In the third quarter of 2005, the Company's Hong Kong business recorded approximately \$37.7 million of net sales compared with approximately \$23.8 million a year ago. Furthermore, in the third quarter of 2005, approximately \$2.0 million of the net sales increase could be attributed to distributors purchasing products in anticipation of our opening in the Japanese market. The remainder of the net sales increase for the third quarter over a year ago was due to Eastern Europe (\$1.0 million) and South Korea (\$0.7 million).

Net sales were approximately \$150.8 million for the nine months ended September 30, 2005 compared to \$96.9 million for the same period in the prior year, an increase of \$53.9 million or 56 percent. The net sales increase was primarily due to Hong Kong (approximately \$42.1 million), Japan (\$4.6 million), Eastern Europe (\$2.6 million) and South Korea (\$1.9 million).

The growth in net sales could also be attributable to a 5% product price increase implemented in January 2005 and an increase in the number of active independent distributors. As of September 30, 2005, the operating subsidiaries of the Company had approximately 169,000 active distributors, compared to 133,000 active independent distributors at the end of 2004, and 118,000 at the end of the third quarter of 2004. As of September 30, 2005, the Company had deferred revenue of approximately \$13.5 million, of which \$4.9 million pertained to product sales. Additionally, deferred revenue included \$1.5 million of Gourmet Coffee Café product shipped but unrecognized as of September 30, 2005.

Cost of Sales. Cost of sales was approximately \$13.0 million or 22.4% of net sales for the three months ended September 30, 2005 compared with approximately \$8.9 million or 21.9% of net sales for the same period in the prior year. Cost of sales was approximately \$33.6 million or 22.3% of net sales for the nine months ended September 30, 2005 compared with approximately \$22.0 million or 22.7% of net sales for the same period in the prior year. This quarterly increase in cost of sales of approximately \$4.1 million or 46% was primarily driven by the significant increase in net sales. For the nine month period, cost of sales as a percentage of net sales decreased over a year ago mainly due to a 5% price increase instituted in January 2005, as well as the elimination of the commissions paid to MarketVision (approximately \$579,000) after its acquisition by the Company on March 31, 2004.

Gross Profit. Gross profit was approximately \$45.1 million or 77.6% of net sales for the three months ended September 30, 2005 compared with approximately \$31.6 million or 78.1% of net sales for the same period in the prior year. Gross profit was approximately \$117.2 million or 77.7% of net sales for the nine months ended September 30, 2005 compared with approximately \$74.9 million or 77.3% of net sales for the same period in the prior year. This increase in the dollar amount of gross profit was primarily driven by increased sales, a 5% price increase instituted in January 2005, as well as the elimination of the commissions paid to MarketVision after its acquisition by the Company on March 31, 2004.

Distributor Commissions. Distributor commissions were approximately \$29.1 million or 50.1% of net sales for the three months ended September 30, 2005 compared with approximately \$17.4 million or 43.0% of net sales for the same period in the prior year. The increase in distributor commissions as a percentage of sales over a year ago primarily related to commissions recorded in the second

quarter of 2004 totaling approximately \$2.7 million for which the associated net sales of approximately \$5.4 million was recognized in the third quarter of 2004. These commissions pertained to products that potentially could be returned under the special return policy the Company implemented in April 2004. As a special measure to establish long-term relationships with the distributors doing business with our Hong Kong office, the Company did not seek to recover commissions associated with the products returned.

Distributor commissions were approximately \$78.0 million or 51.7% of net sales for the nine months ended September 30, 2005 compared with approximately \$49.7 million or 51.3% of net sales for the same period in the prior year. This increase in the dollar amount of commission expense was mainly due to the increase in net sales. The increase in distributor commissions as a percentage of sales over a year ago primarily relates an increase in local market programs, offset by a 5% price increase implemented in January 2005 without changing the commission calculation formula.

Selling, General and Administrative Expenses (SG&A). SG&A costs were approximately \$15.1 million or 26.0% of net sales for the three months ended September 30, 2005 compared with approximately \$8.3 million or 20.5% of net sales for the same period in the prior year. In the third quarter, this increase of approximately \$6.8 million or 82% was mainly attributable to additional marketing-related expenses primarily in Eastern Europe (\$1.6 million) and Hong Kong/China (\$2.3 million), preparing the opening of new markets in Mexico and Japan (\$1.6 million), and higher professional fees and personnel cost in North America (\$1.3 million). SG&A costs are expected to continue to increase for the balance of the year as spending on new markets and marketing events increase.

SG&A costs were approximately \$36.7 million or 24.3% of net sales for the nine months ended September 30, 2005 compared with approximately \$22.5 million or 23.2% of net sales for the same period in the prior year. The increase was due to increased marketing spending in Eastern Europe (\$4.1 million) and Hong Kong/China (\$3.0 million), preparing the opening of new markets in Mexico and Japan (\$3.0 million), and higher professional fees and personnel cost in North America (\$2.5 million).

Other Expense, Net. Other expense was approximately \$88 thousand for the three months ended September 30, 2005 compared to approximately \$91 thousand for the same period in the prior year. For the first nine months of the year, other expense was approximately \$761 thousand for 2005, versus \$121 thousand a year ago. This unfavorable variance was mainly due to exchange losses caused by a strengthening of the U.S. dollar since December 31, 2004, particularly against the euro.

Income Taxes. Income tax expense was approximately \$924 thousand or 51% of income before income taxes and minority interest for the nine months ended September 30, 2005, compared to approximately \$110 thousand or 4.2% of income before income taxes and minority interest for the same period in the prior year. The increase in the effective tax rate is primarily attributable to lower taxable earnings in the United States and its corresponding effect on the realization of net operating loss carryforwards and the associated deferred tax benefits.

Minority Interest. Minority interest expense was approximately \$75 thousand for the three months ended September 30, 2005, compared to a benefit of approximately \$74 thousand for the same period in the prior year. Minority interest expense was approximately \$138 thousand for the nine months ended September 30, 2005, compared to approximately \$457 thousand for the same period in the prior year. The change relates primarily to the decreased profitability of our 51%-owned subsidiary, KGC Networks Pte. Ltd.

Net Income. Net income was approximately \$119 thousand or 0.2% of net sales for the three months ended September 30, 2005, compared to approximately \$5.0 million or 12.4% of net sales for the same period in the prior year. Net income was approximately \$755 thousand or 0.5% of net sales for the nine months ended September 30, 2005, compared to approximately \$2.0 million or 2.1% of net sales for the same period in the prior year. The reduction in profitability was primarily due to an increase in distributor commissions and SG&A as a percent of sales.

Liquidity and Capital Resources

Cash generated from operations is the main funding source for the Company's working capital and capital expenditure. In the past, the Company also borrowed from institutions and individuals and issued preferred stock. In October 2004, the Company raised approximately \$16 million, net of transaction fees, through a private equity placement.

At September 30, 2005, the ratio of current assets to current liabilities was 1.61 to 1.00 and the Company had working capital of approximately \$20.6 million.

Cash provided by operations for the nine months ended September 30, 2005 was approximately \$4.5 million. The sales increase and the Company's anticipation of continued sales increase in the near future was the most significant underlying trend for cash flows from operating activities and the change in the Company's working capital. Cash was mainly generated from earnings, increases in accrued distributor commissions and deferred revenue, all driven by sales increase, partly offset by an increase in inventories and deposits to acquire additional inventories. But there is no assurance that the expected sales increase in the near term will be realized.

Cash used in investing activities during the period was approximately \$1.6 million, which primarily relates to the purchase of property and equipment for our Mexican operations, the build out of new offices in Hong Kong, and a manufacturing facility in China. Cash provided by financing activities during the period was approximately \$3.0 million as of the Company received proceeds totaling approximately \$3.6 million from the exercise of warrants for 289,200 shares of common stock, partly offset by the continued repayment of MarketVision acquisition-related promissory notes. In connection with the MarketVision acquisition, the Company issued three different promissory notes in the aggregate principal amount of approximately \$3.2 million. As of September 30, 2005, approximately \$173 thousand remained to be paid over the rest of the year.

Total cash increased by approximately \$6.0 million during the period.

With cash generated from profitable business operations and the net proceeds from the private placement closed in October 2004, the Company believes that its existing liquidity and cash flows from operations, including its cash and cash equivalents, should be adequate to fund normal business operations expected in the future.

The Company intends to open additional operations in new foreign markets. The Company continues to incur expenses to develop the Mexican and Japanese markets in 2005. The estimated initial cost for entering into the Mexican market is \$2 million to \$3 million, and \$5 million to \$7 million for the Japanese market. Actual cost incurred through September 30, 2005 total approximately \$2.6 million and \$3.5 million for the Mexican and Japanese markets, respectively.

China is currently the Company's most important business development project. Direct selling, or multi-level marketing, is currently prohibited in China. The Chinese government has agreed to open the direct selling market and has published drafts of pertinent legislation. The latest draft of the legislation earmarked December 1, 2005 as the day the laws are to be officially adopted. The drafted laws, among other requirements, also require a capital formulation of approximately \$10 million. Before the formal adoption of direct selling laws, many of the international direct selling companies have started to operate in China by employing a retail format.

In June 2004, the Company obtained a business license in China. The license stipulates a capital requirement of \$12 million over a three-year period, including a \$1.8 million initial payment that the Company made in January 2005. In planning for retail operations, the Company estimates that each "experience center", where prospective distributors or consumers could sample the Company's products, will cost approximately \$50,000 to \$100,000 to build out, plus approximately \$100,000 to \$250,000 of annual lease costs. The Company opened its first experience center in Guangzhou in July 2005 and is evaluating the number, location, timing and format of up to three additional experience centers.

As part of the Company's plan to expand business in China, we are preparing for a manufacturing facility in China to supply the demand in China once the Company obtains a direct selling license. The Company has leased a factory building and a warehouse as well as purchased machinery in the second quarter. Our current intention is to start with the finishing stage of the manufacturing process needed to produce our products in China. In the future, we expect to add more early-stage manufacturing processes. However, this is dependent upon the progress of our manufacturing facility and the regulatory environment.

On April 12, 2004, an independent TV documentary show was aired on Chinese television, which made allegations that the Company engaged in illegal acts and the distributors made false claims. The show had adversely impacted the Company's Hong Kong based business in 2004. Since the airing of the program, to the knowledge of the Company, the Chinese government has not initiated any investigation of the Company or its independent distributors. Nevertheless the Company is also unable to predict whether it will be successful in obtaining a direct selling license to operate in China, and if it is successful, when it will be permitted to commence direct selling operations there. Further, if the Company is successful in obtaining a direct selling license to do business in China, it is uncertain as to whether the Company will generate profits from such operations.

The Company launched a new product line, Gourmet Coffee Café, in the North American market in the second quarter. The Company received approximately \$1.5 million of orders as of September 30, 2005.

The Company has begun an evaluation of implementing an enterprise resources planning ("ERP") system. Internal business processes are mostly manual and do not link to the MarketVision system, the Company's Internet-based distributor interface. At this point, the Company does not know how much the ERP project might cost or when the implementation may start.

Off - Balance Sheet Arrangements

The Company does not utilize off-balance sheet financing arrangements other than in the normal course of business. The Company finances the use of certain facilities, office and computer equipment, and automobiles under various operating lease agreements.

Forward Looking Statements

Certain statements contained in this report constitute "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. All statements included in this report, other than statements of historical facts, regarding our strategy, future operations, financial position, estimated revenues, projected costs, prospects, plans and objectives are forward-looking statements. When used in this report, the words "believe," "anticipate," "intend", "estimate," "expect," "project", "could", "would", "may", "plan", "predict", "pursue", "continue", "feel" and similar expressions are intended to identify forward-looking statements, although not all forward-looking statements contain these identifying words.

We cannot guarantee future results, levels of activity, performance or achievements, and you should not place undue reliance on our forward-looking statements. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of various factors. Our forward-looking statements do not reflect the potential impact of any future acquisitions, mergers, dispositions, joint ventures or strategic investments. In addition, any forward-looking statements represent our expectation only as of the date of this report and should not be relied on as representing our expectations as of any subsequent date. While we may elect to update forward-looking statements at some point in the future, we specifically disclaim any obligation to do so, even if our expectations change.

Although we believe that the expectations reflected in any of our forward-looking statements are reasonable, actual results could differ materially from those projected or assumed in any of our forward-looking statements. Our future financial condition and results of operations, as well as any forward-looking statements, are subject to change and to inherent risks and uncertainties, such as those disclosed in this report. Important factors that could cause our actual results, performance and achievements, or industry results to differ materially from estimates or projections contained in forward-looking statements include, among others, the following:

- our relationship with our distributors;
- our need to continually recruit new distributors;
- our internal controls and accounting methods may require further modification;
- regulatory matters governing our products and network marketing system;
- our relationship with our majority owned subsidiary operating in Russia and other Eastern European countries;
- our ability to recruit and maintain key management;
- adverse publicity associated with our products or direct selling organizations;
- product liability claims; our reliance on outside manufacturers;
- risks associated with operating internationally, including foreign exchange risks;
- product concentration;
- dependence on increased penetration of existing markets;
- adverse consequences from audit committee investigation and/or management reorganization;
- the competitive nature of our business; and
- our ability to generate sufficient cash to operate and expand our business.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Foreign Currency Risk

In the first nine months of 2005, approximately 9% of our revenue was recorded in United States dollars. The Hong Kong dollar is pegged to the U.S. dollar and we purchase nearly all inventories in U.S. dollars. Therefore, our currency exposure, mainly to European euro, Korean won, Singapore dollar, New Taiwan dollar and Australia dollar, represented approximately 28% of our revenue (18% of that for euro) in the first nine months of 2005.

In preparing our consolidated financial statements, we translate revenue and expenses in foreign countries from their local currencies into U.S. dollars using the average exchange rates for the period. The local currency of each subsidiary's primary markets is considered the functional currency. The effect of the translation of the Company's foreign operations is included in accumulated other comprehensive income within stockholders' equity and does not impact the statement of operations.

As currency rates change, translation of our foreign currency functional businesses into U.S. dollars affects year-over-year comparability of equity. We do not plan to hedge translation risks because cash flows from our international operations are generally reinvested locally. Changes in the currency exchange rates that would have the largest impact on translating our international net assets included European euro, Korean won, New Taiwan dollar and Australian dollar. Japanese yen and Mexican peso are expected to be more significant as we enter those two markets in the second half of 2005.

The Chinese government announced on July 21, 2005 that its currency will no longer be pegged to the U.S. dollar. Instead, the exchange rates for the Chinese yuan, or RMB, will be determined by a basket of foreign currencies. This change effected a de facto revaluation of the yuan to the U.S. dollar from an 8.28 yuan to 8.11 yuan per U.S. dollar.

This change should have a very modest, potentially positive, effect on the Company's Hong Kong business. The Company currently does not generate revenue in yuan. Revenue recorded in Hong Kong is denominated in Hong Kong dollar, which is not impacted by the yuan revaluation and still pegged to the U.S. dollar. But the Chinese consumers in purchasing the Company's products will now pay a smaller amount of yuan to purchase our products, thus effectively a price decrease is implemented for our Chinese consumers.

The Company does incur some expenses in yuan in China, and these expenses will be translated into a greater amount of U.S. dollars in our financial statements. The exchange impact on the expenses incurred in China, approximately \$1.2 million in the second and third quarters, were, and are expected to continue to be, immaterial.

If the Company determines to increase our capital formulation in China in the near future with cash infusion, the yuan revaluation means that we will need to contribute a greater amount of U.S. dollars. When the Company is ready to apply for a direct selling license in China, in accordance with the pending direct selling legislation, we are expected to transfer approximately \$8 million of cash to capitalize our Chinese entity, in order to fulfill the capital requirement.

Hedging

Our exposure to foreign currency fluctuation is expected to increase when the Company opens for business in Japan and Mexico. The Company currently has no specific plans but expects to evaluate whether it should use forward or option contracts to hedge its foreign currency exposure.

Seasonality

In addition to general economic factors, the Company's revenue is slightly impacted by seasonal factors and trends such as major cultural events and vacation patterns. For example, most Asian markets celebrate their respective local New Year in the first quarter, which generally has a negative impact on that quarter. We believe that direct selling in the United States and Europe is also generally negatively impacted during the month of August, which is in our third quarter, when many individuals, including our distributors, traditionally take time off for vacations.

The seasonality of the Company's spending in SG&A is significantly impacted by the timing of major meetings, events, advertising, promotions and other marketing-related programs, which are materially discretionary. For example, the marketing-related spending is generally less in the first quarter when no major event is planned. The Company currently does not have a fixed calendar for when these events are held.

Interest Rate Risk

As of September 30, 2005, we do not think the Company has any exposure to interest rate risk as the Company has limited borrowings that are interest rate sensitive.

Item 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms and that such information is accumulated and communicated to our management, including our President and Chief Financial Officer, as appropriate, to allow for timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well

designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

During its review of its financial statements for the quarter ended March 31, 2004, the Company learned that commission and transportation-related expenses incurred as of December 31, 2003 were under-accrued by approximately \$640,000 (on a pre-tax basis) for the quarter and year ended December 31, 2003. Adjusting entries of approximately \$640,000 were included as expenses in the financial statements for the quarter ended March 31, 2004.

At that time, the Company concluded that the error was not material, and therefore, did not warrant a restatement of the 2003 financial statements. Based upon the Company's pre-tax income of approximately \$4.0 million for the first quarter of 2004 combined with the Company's historical sales and net income growth rates, the Company believed that the recording of \$640,000 of pre-tax expenses during the first quarter of 2004 would not have a material effect on the Company's net income for the 2004 fiscal year.

However, while sales continued to grow significantly, net income for the 2004 fiscal year declined substantially. As a consequence, the adjusting entries made in the first quarter of 2004 are now considered by management to materially affect the Company's net income for fiscal 2004.

During its review of its financial statements for the year ended December, 31, 2004, the Company discovered that certain revenues not earned until 2004 were improperly recorded as revenue by its Eastern European business, KGC Networks Ptd. Ltd., for the year ended December 31, 2003. The amount of revenues that was over-stated for the 2003 fiscal year was approximately \$310,000.

On March 23, 2005, the Audit Committee of the Company's Board of Directors determined that the inclusion of the aforementioned two items in the financial statements for the quarter ended March 31, 2004 would materially affect the Company's net income for the year ended December 31, 2004, and the Company believes that an amendment to its financial statements for the year ended December 31, 2003 is warranted.

The restatement of the financial statements for the year ended December 31, 2003 reduced the Company's net sales by approximately \$310,000, increased cost of sales by approximately \$180,000, increased distributor commission expense by approximately \$460,000, reduced the minority interest expense by approximately \$300,000, and reduced after-tax net income by approximately \$650,000 for the quarter as well as the year ended December 31, 2003.

For the quarter ended March 31, 2004, the restatement increased the Company's net sales by approximately \$310,000, reduced cost of sales by approximately \$180,000, reduced distributor commission expense by approximately \$460,000, increased the minority interest expense by approximately \$300,000, and increased after-tax net income by approximately \$650,000 for the quarter ended March 31, 2004.

The Company, after consultation with its Audit Committee, concluded that the consolidated financial statements for the quarter and the year ended December 31, 2003 as well as the first quarter of 2004 should no longer be relied upon, including the consolidated financial statements and other financial information in the Company's Annual Report on Form 10-KSB for the year ended December 31, 2003 and the Quarterly Report on Form 10-Q for the first quarter ended March 31, 2004. Although the financial statements for the three month periods ended June 30, 2004 and September 30, 2004 are unaffected by this error, the consolidated financial statements for the second and third quarters of 2004 include inaccurate information on a year to date basis because they include the erroneous information from the first quarter of 2004 which financial statements should not be relied upon.

The Company's Audit Committee and management have discussed these matters with BDO Seidman LLP ("BDO"), the Company's independent registered public accounting firm.

The Company recognizes that the improper accounting for commission and transportation-related expenses and revenue recognition for the year ended December 31, 2003 reflected a material control weakness in the Company's internal control over financial reporting that existed at December 31, 2003, such control weakness has been subsequently remedied during 2004.

At March 31, 2005, the Company determined a significant disclosure control weakness resulted from an inaccurate tax provision calculation. Such control weakness was remedied during the second quarter of 2005. The Company may elect to adopt additional procedures and controls related to the tax provision calculation in the future if deemed necessary.

In December 2004, concerns were raised by management regarding certain of the Company's controls and procedures involving related party transactions, personal expenses incurred by senior management and inventory shipped to a Company subsidiary. The Company's Audit Committee had such transactions, controls and procedures examined by a third party, and the Board of Directors of the Company concluded in July 2005 that there was a lack of documentation with respect to certain related party transactions,

subsidiary operations and expense reimbursement procedures. In addition, sufficient policies regarding loans to employees and third parties had not been adopted or implemented. Further, an investigation was initiated in August 2005 and includes allegations of misconduct by Messrs. Woodburn and LaCore asserted by an unrelated third party arising out of a lawsuit involving Mr. LaCore and such unrelated third party. As a result of this investigation, the Company further determined policies related to independent distributor relationships are inadequate. These control weaknesses, taken in the aggregate, are considered by management a material control weakness.

An evaluation of the Company's disclosure controls and procedures (as defined in Section 13(a)-14(c) of the Exchange Act) as of September 30, 2005 was carried out under the supervision and with the participation of the Company's Interim Chief Executive Officer, Chief Financial Officer, Chief Accounting Officer and other members of the Company's senior management. The Company's Interim Chief Executive Officer, Chief Financial Officer and Chief Accounting Officer concluded that, because of the material control weakness identified in the preceding paragraph, the Company's disclosure controls and procedures as currently in effect are not effective in ensuring that the information required to be disclosed by the Company in the reports it files or submits under the Exchange Act is (i) accumulated and communicated to the Company's management (including the Interim Chief Executive Officer and Chief Financial Officer) in a timely manner, and (ii) recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms.

Changes in Internal Controls

In 2004 and the first half of 2005, the Company made changes to improve its internal controls over financial reporting with respect to (i) each of the Restatement Items, and (ii) monthly financial reports provided to the Company by its subsidiaries. The Company hired a new Chief Financial Officer in August 2004, a new Chief Accounting Officer in September 2004, a regional Chief Financial Officer for Greater China and Southeast Asia in October 2004 and other additional staff to upgrade our financial organization. In addition, the Company has commenced its documentation required under the Sarbanes-Oxley Act of 2002 and is developing additional policies and procedures to further strengthen its international reporting, including the areas of revenue recognition, sales and expense cut-off and sales returns. The Company hired a reporting specialist in November 2004 to coordinate the world-wide Sarbanes-Oxley compliance work. In December 2004, the Company hired a general counsel, who subsequently was given additional responsibilities as the Chief Operating Officer, to enhance compliance and control.

In June 2005, the Company engaged the national accounting firm Grant Thornton to assist its effort in designing and documenting controls over business processes, working toward compliance with Section 404 of the Sarbanes-Oxley Act of 2002. The Company is also evaluating whether to implement additional controls and procedures, including but not limited to an enterprise resources planning system to replace its present predominantly manual process, sufficient to accurately report financial performance on a timely basis.

As a result of the examination concluded in July 2005, the Board of Directors formed a Compliance Committee comprised of an independent director and several members of senior management which are advised by outside, independent counsel. The purpose of the Compliance Committee is to review the policies, programs and practices of the Company and its subsidiaries and to monitor the adequacy of compliance systems with respect to foreign, federal and state laws. The Company also appointed an Ethics and Compliance Officer (who is currently the Company's General Counsel).

During September 2005, the Company reorganized its senior management team in connection with an investigation conducted by the Company's Audit Committee. Effective October 3, 2005, the Board of Directors of the Company appointed Robert H. Hesse, a member of the Company's Board of Directors since July 2004, as the Company's Interim Chief Executive Officer. Each of Mark Woodburn and Terry LaCore resigned as officers and members of the Company's Board of Directors due to their failure to cooperate with the Audit Committee's investigation. The investigation was initiated in August 2005 and includes allegations of misconduct by Messrs. Woodburn and LaCore asserted by an unrelated third party arising out of a lawsuit involving Mr. LaCore and such unrelated third party. From October 3, 2005 through November 13, 2005, Messrs. Woodburn and LaCore were employed as the Company's Global Managing Director — Operations and Global Managing Director — Business Development, respectively.

The Company also created the Office of the Chief Executive, which is comprised of Mr. Hesse, Chris Sharng, the Company's Executive Vice President and Chief Financial Officer, and Richard S. Johnson, President of Natural Health Trends — Japan. The Office of the Chief Executive is responsible for managing the day-to-day operations of the Company. Since Mr. Hesse is no longer considered to be an independent director, he resigned from the Company's Audit Committee in September 2005. The Company's Nominating Committee is in the process of identifying, reviewing and evaluating appropriate candidates for appointment to the Board of Directors as independent directors. The Company intends to appoint two of the anticipated new independent directors to its Audit Committee.

The Company has formed a search committee to identify and consider appropriate candidates to serve as the Company's Chief Executive Officer. While serving as the Company's Interim Chief Executive Officer, the Company pays Mr. Hesse \$2,000 per day plus reimbursement of out-of-pocket expenses.

On November 10, 2005, an independent investigator retained by the Company's Audit Committee learned that an entity controlled by Messrs. Woodburn and LaCore received payments from an independent distributor of the Company's products during 2001 through August 2005. The Company believes that Messrs. Woodburn and LaCore received from such independent distributor a total of approximately \$1.4 million and \$1.1 million, respectively. The Company believes that the fees paid by the Company to such independent distributor were not in excess of the amounts due under the Company's regular distributor compensation plan.

Approximately \$2.4 million of the funds paid by the independent distributor to Messrs. Woodburn and LaCore were paid at the direction of Messrs. Woodburn and LaCore to an entity that is partially owned by Mr. Woodburn's father and Randall A. Mason, a member of the Company's Board of Directors and Chairman of the Company's Audit Committee. The funds were subsequently paid to an entity controlled by Messrs. Woodburn and LaCore at their direction. The Company believes that Mr. Mason was unaware that these payments were directed by Messrs. Woodburn and LaCore to an entity partially owned by him until uncovered by the Audit's Committee's independent investigator on November 10, 2005. Further, the Company believes that Mr. Mason received no pecuniary benefit from the payments made by the independent distributor. Since payments were directed into an entity that is partially owned by Mr. Mason, he no longer can be considered "independent" in accordance with the rules of The Nasdaq Stock Market and under the federal securities laws. Therefore, effective November 11, 2005, Mr. Mason resigned as Chairman and a member of the Company's Audit Committee. Mr. Mason remains as a director.

On November 14, 2005, in light of the information learned by the Company's Audit Committee on November 10, 2005, the Company has terminated the employment of each of Messrs. Woodburn and LaCore. No severance has been paid by the Company to Messrs. Woodburn and LaCore and the Company is investigating claims of action against them.

In addition, a loan made by the Company under the direction of Mr. Woodburn in the aggregate principal amount of \$256,000 in February 2004 was previously recorded as a loan to a third party. On November 10, 2005, the Audit Committee investigator learned that the Company actually loaned the funds to an entity owned and controlled by the parents of Mr. Woodburn. The loan was repaid in full, partially by an entity controlled by a third party and partially by an entity controlled by Mr. Woodburn in December 2004.

The Audit Committee's investigation is ongoing, and among other procedures the Company is attempting to interview additional top distributors. The outcome of the interviews could have an adverse effect on disclosures related to funds paid to Messrs. Woodburn and LaCore and potentially other members of management. The Company is seeking additional independent directors for its Board of Directors and the committees thereof. The Company intends to amend certain disclosures in previous filings with the Securities and Exchange Commission related to payments made by the independent distributor to Messrs. Woodburn and LaCore and to re-characterize the loan made by the Company to the entity controlled by Mr. Woodburn's parents.

In light of the noted material weakness, we have instituted, and will continue to institute, control improvements that we believe will reduce the likelihood of similar errors, such as developing policies related to distributor compensation adjustments, employee loans, expense reimbursements, and distributor relationships. If the remedial policies and procedures we have implemented, and will continue to implement, are insufficient to address the material weakness or if additional significant deficiencies or other conditions relating to our internal controls are discovered in the future, we may fail to meet our future reporting obligations, our financial statements may contain material misstatements and our operating results may be adversely affected. Any such failure could also adversely affect the results of the periodic management evaluations and annual auditor attestation reports regarding the effectiveness of our internal controls over financial reporting, which will be required when the SEC's rules under Section 404 of the Sarbanes-Oxley Act of 2002 become applicable to us beginning with the filing of our Annual Report on Form 10-K for the year ended December 31, 2006. Internal control deficiencies could also cause investors to lose confidence in our reported financial information. Although we believe that we have addressed, or will address in the near future, our material weakness in internal controls, we cannot guarantee that the measures we have taken to date or any future measures will remediate the material weakness identified or that any additional material weakness or significant deficiencies will not arise in the future due to a failure to implement and maintain adequate internal controls over financial reporting.

The Company intends to continually review and evaluate the design and effectiveness of its disclosure controls and procedures and to improve its controls and procedures over time and to correct any deficiencies that it may discover in the future. The goal is to ensure that senior management has timely access to all material financial and non-financial information concerning the Company's business. Future events affecting its business may cause the Company to modify its disclosure controls and procedures.

PART II — OTHER INFORMATION

Item 1. LEGAL PROCEEDINGS

During the fall of 2003, the customs agency of the government of South Korea brought a charge against LXK, Ltd. ("LXK"), the Company's wholly-owned subsidiary operating in South Korea, with respect to the importation of the Company's Alura product. The customs agency alleges that Alura is not a cosmetic product, but rather should be categorized and imported as a pharmaceutical product. On February 18, 2005, the Seoul Central District Court ruled against LXK and fined it a total of approximately \$200,000. LXK also incurred related costs of approximately \$40,000 as a result of the judgment. The Company recorded a reserve for the entire \$240,000 at December 31, 2004 and is appealing the ruling. The failure to sell Alura in South Korea is not anticipated to have a material adverse effect on the financial condition, results of operations, cash flow or business prospects of LXK.

On or around March 31, 2004, Lexxus International, Inc. ("Lexxus U.S.") received a letter from John Loghry, a former Lexxus distributor, alleging that Lexxus U.S. had wrongfully terminated an alleged oral distributorship agreement with Mr. Loghry and that the Company had breached an alleged oral agreement to issue shares of the Company's common stock to Mr. Loghry. After Mr. Loghry threatened to commence suit against Lexxus U.S. and the Company in Nebraska, on May 13, 2004, Lexxus U.S. and the Company filed an action for declaratory relief against Mr. Loghry in the United States District Court for the Northern District of Texas seeking, inter alia, a declaration that Mr. Loghry was not wrongfully terminated and is not entitled to recover anything from Lexxus U.S. or the Company. Mr. Loghry has filed counterclaims against the Company and Lexxus U.S. asserting his previously articulated claims. In September 2004, Mr. Loghry filed third party claims against certain officers of the Company and Lexxus U.S., including against Terry LaCore, former Chief Executive Officer of Lexxus U.S. and former director of the Company, and Mark Woodburn, former President and director of the Company, for fraud, Messrs. LaCore, Woodburn, and a certain Lexxus distributor for conspiracy to commit fraud and tortuous interference with contract. In February 2005, the court dismissed all of Mr. Loghry's claims against the individual defendants, except the claims for fraud and conspiracy to commit fraud. On June 2, 2005, after Mr. Loghry had filed amended counterclaims, Lexxus U.S., the Company, and the individual defendants moved to dismiss the counterclaims on the grounds that the claims were barred because Mr. Loghry had failed to disclose the existence of the alleged claims when he filed for personal bankruptcy in September 2002. On June 23, 2005, the court stayed discovery pending resolution of the pending motion to dismiss. On June 30, 2005, at the request of Mr. Loghry, the U.S. Bankruptcy Court for the District of Nebraska reopened Mr. Loghry's previously closed Chapter 7 bankruptcy case. On September 6, 2005, the trustee commenced an action in the U.S. District Court for the District of Nebraska against the Company; Lexxus U.S.; Messrs. LaCore and Woodburn; Curtis Broome, President of Greater China and Southeast Asia; and Lisa Grossman, an independent distributor of Lexxus U.S., alleging (i) breaches of contracts by the Company and Lexxus U.S., (ii) fraudulent inducement by the Company, Lexxus U.S., and Messrs. LaCore and Woodburn, (iii) civil conspiracy among all defendants, and (iv) tortuous interference with existing contractual relations by Mr. Broome and Ms. Grossman. The Company denies the allegations and intends to contest the

On November 1, 2004, Toyota Jidosha Kabushiki Kaisha (d/b/a Toyota Motor Corporation) and Toyota Motor Sales, U.S.A. (the "Toyota Entities") filed a complaint against the Company and Lexxus U.S. in United States District Court for the Central District of California (CV04-9028). The complaint alleges trademark and service mark dilution, unfair competition, trademark and service mark infringement, and trade name infringement, each with respect to Toyota's Lexus trademark. Toyota seeks to enjoin the Company and Lexxus U.S. from using the Lexxus mark and otherwise competing unfairly with Toyota, to transfer the ownership of the mylexxus.com and lexxusinternational.com internet sites to Toyota, and reimbursement of costs and reasonable attorney fees incurred by Toyota in connection with this matter. The Company has reached a settlement agreement, dated August 31, 2005, under which the Toyota Entities have agreed to terminate their claims against the Company, and the Company has agreed to, on or before June 1, 2006, discontinue use of the Lexxus name and mark, and change the name of its Lexxus operations and domain names, which could have a material adverse effect on the financial condition, results of operations, cash flow or business prospects of the Company.

On November 12, 2004, Dorothy Porter filed a complaint against the Company in the United States District Court for the Southern District of Illinois alleging that she sustained a brain hemorrhage after taking Formula One, an ephedra-containing product marketed by Kaire Nutraceuticals, Inc., a former subsidiary of the Company, and, thereafter, eKaire.com, Inc., a wholly-owned subsidiary of the Company. Ms. Porter has sued the Company for strict liability, breach of warranty and negligence. The Company intends to defend this case vigorously and on December 27, 2004 filed an answer denying the allegations contained in the complaint. The plaintiff demanded \$2 million in damages to settle the case. On March 7, 2005, a Notice of Tag-Along Action was filed by Ms. Porter with the Judicial Panel on Multidistrict Litigation. It is anticipated that this case will be placed on the next Conditional Transfer Order and, ultimately, transferred to the consolidated Ephedra Products Liability proceedings in the United States District Court for the Southern District of New York. The Company does not believe that the plaintiff can demonstrate that its products caused the alleged injury and intends to vigorously defend this action.

On January 13, 2005, Nature's Sunshine Products, Inc. and Nature's Sunshine Products de Mexico S.A. de C.V. (collectively "Nature's Sunshine") filed suit against the Company in the Fourth Judicial District Court, Utah County, State of Utah seeking injunctive relief and unspecified damages against the Company, Lexxus U.S., the Company's Mexican subsidiary, and the Company's Mexico management team, Oscar de la Mora Romo and Jose Villarreal Patino, alleging among other things that the Company's employment of Messrs. De la Mora and Villarreal violated or could lead to the violation of certain non-compete, non-solicitation, and confidentiality agreements allegedly in effect between Messrs. De la Mora and Villarreal and Nature's Sunshine. Following repeated unsuccessful attempts by Nature's Sunshine to remand the case to state court, Nature's Sunshine voluntarily dismissed its lawsuit on May 5, 2005 and subsequently filed a new lawsuit in the Fourth Judicial District Court in Utah County, Utah. On August 22, 2005, a hearing was conducted on Nature's Sunshines's request for preliminary injunction, after which the court announced its intention to enjoin Messrs. De la Mora and Villarreal from disclosing any confidential information of Nature's Sunshine. The court, however, did not enjoin Messrs. De la Mora or Villarreal from competing with Nature's Sunshine. The case remains pending. If the Company or Messrs. De la Mora and Villarreal are unsuccessful in defending this action, the Company may be required to change its Mexico management team, at least during the unexpired term of any enforceable non-compete period, and pay any damages and attorneys' fees that may be assessed against it.

Currently, there is no other significant litigation pending against the Company other than as disclosed in the paragraphs above. From time to time, the Company may become a party to litigation and subject to claims incident to the ordinary course of the Company's business. Although the results of such litigation and claims in the ordinary course of business cannot be predicted with certainty, the Company believes that the final outcome of such matters will not have a material adverse effect on the Company's business, results of operations or financial condition. Regardless of outcome, litigation can have an adverse impact on the Company because of defense costs, diversion of management resources and other factors.

Item 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

During the three months ended September 30, 2005, the Company issued 237,600 shares of common stock in connection with the exercise of common stock purchase warrants that were issued to investors in October 2004. The exercise price was \$12.47 per share and the shares were issued pursuant to Section 4(2) of the Securities Act of 1933, as amended.

Item 3. DEFAULTS UPON SENIOR SECURITIES

Not applicable.

Item 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

Not applicable.

Item 5. OTHER INFORMATION

None.

Item 6. EXHIBITS

- 31.1 Certification of the Interim Chief Executive Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
- 31.2 Certification of the Chief Financial Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
- 32.1 Certification of the Interim Chief Executive Officer pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.
- 32.2 Certification of the Chief Financial Officer pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

SECTION 302 - CERTIFICATION OF INTERIM CHIEF EXECUTIVE OFFICER

- I, Robert H. Hesse, Interim Chief Executive Officer of Natural Health Trends Corp., certify that:
- 1. I have reviewed this quarterly report on Form 10-Q of Natural Health Trends Corp.;
- 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- 4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the registrant and have:
- a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
- b) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
- c) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- 5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent functions):
- a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
- b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
